## PROFESSIONAL SUMMARY

Highly skilled and results-driven Software Developer with over 7 years of experience specializing in C#.Net, VB.Net, ASP.NET, and full-stack web development. Adept at managing both front-end and back-end systems, with a proven track record of delivering high-performance solutions across multiple platforms. Demonstrates strong expertise in designing and developing web applications, ERP systems, and Motivated and detail-oriented Software Engineering student with hands-on experience in MERN Stack Development (MongoDB, Express.js, React, Node.js) and strong foundational knowledge of C++, Java, and MySQL. Passionate about building responsive and scalable web applications using modern front-end frameworks like React and Tailwind CSS. Demonstrates excellent problem-solving abilities, teamwork, and a continuous drive to learn and implement new technologies. Developed multiple full-stack projects including authentication systems, school management software, and e-commerce platforms, showcasing proficiency in both front-end and back-end development. Committed to writing clean, efficient code and delivering high-quality digital solutions that enhance user experience and performance.

## CORE COMPETENCIES

- Proven ability to develop high-performance web applications using the MERN Stack, delivering responsive and scalable solutions aligned with user requirements and modern UI/UX standards.
- Experienced in database design and optimization using MongoDB, implementing CRUD operations, efficient schema structures, and data handling techniques to enhance system performance and reliability.
- Skilled in front-end development with React, Tailwind CSS, and Bootstrap, focusing on clean design, reusability, and improved user experience across multiple devices.
- Demonstrated ability to collaborate effectively in team environments, manage multiple tasks simultaneously, and contribute to achieving project milestones within deadlines and improving overall development workflow and efficiency.

## EDUCATION

<b>Computer Engineering</b> <b>University of Central Punjab</b>	<b>10/2023 - 10/2025</b>
<ul style="list-style-type: none"><li>BS Software Engineering</li></ul>	
<b>Intermediate</b> <b>Punjab College of Information Technology</b>	<b>04/2013 - 05/2015</b>
<ul style="list-style-type: none"><li>ICS</li></ul>	

## PERSONAL PROJECTS

- A MERN Stack project implementing secure login, signup, and password recovery (OTP-based) using the MVC architecture.
- A MERN Stack application to manage student information, fee records, and CRUD operations for administrators.
- A MERN Stack project designed to manage restaurant operations featuring an Admin Dashboard, product management and customer facing pages
- A React and Tailwind CSS based personal portfolio showcasing projects, technical skills, and interactive UI elements.

## CERTIFICATES

<b>MERN Stack Web Development</b>	<b>11/2024 - 05/2025</b>
<ul style="list-style-type: none"><li>Ideoversity Training Institute, Arfa Software Technology Park, Lahore</li></ul>	

## HOBBIES & WEBSITES PROJECTS

- Creating Designs & architectures for software and web-based applications (GUI & User Interface)
- Browsing & exploring websites and searching for new ideas for applications and websites
